Ladies and Gentlemen

Service offering

Our office operates in the work of surveyors and estimators, the field of technical and engineering studies in the areas of mining engineering, logistics, chemicals, mechanics, industrial structures and units, pollution control, civil engineering, and construction and public works, and has an up-to-date legal entrepreneurship file that allows us to carry out the following:

- Provision of a topographic survey team.
- Topographic surveying and site layout.
- Land demarcation.
- Construction monitoring and follow-up, technical consultations, and project support.
- Development of architectural and structural studies.
- Preparation of subdivision descriptions (EDD) for land titles.
- Parcel status assessment.
- Subdivision.
- Preparation of subdivision permits.
- Volume, quantity and digital terrain model calculations (MNT).

And in other topics :

- Complete road study (Covadis-Autopiste)
- Preparation of construction documents
- Preparation of as-built documentation – AS BUILD
- Financial estimation of projects
- Preparation and review of specifications
- Site works study – sanitation – drinking water supply – public lighting (horizontal alignment, longitudinal profile, typical cross-section, cross-sections, etc.)

We can provide you with professional services involving consultants (geotechnics, soil studies, geological activities, energy and mining, NDT, etc.).

please accept our sincere regards.

Resource allocation

1- Material resources :

Item	Designation	Quantity	State
Means of transport (personnel and equipment)			
01	Toyota single cab 4x4 pickup truck	01	Good
Surveying and quantity surveying equipment			
01	Leica TCR 1101 R400 Robotic Total Station Package	01	Good
02	Leica TCR 305 R100 1″ Total Station Package	01	Good
03	Foldable digital odometer	01	New
04	Leica NA720 Automatic Construction Level Pack	01	Good
05	Laser distance meter 100M range	01	New
Office equipment			
01	Responsible office and management	01	Good
02	Documentation and Archives Cabinet	01	New
03	Office PC with Intel i7 processor	01	Good
04	Acer laptop, 4th generation i7	01	Good
05	Visitor chairs	02	New
06	Canon monochrome printer	01	Good

1- Human resources :

Item	Function	Number	Qualification and instruction
01	Topographer	02	BTS + experience
02	Surveyor's assistant	02	CMTC + experience
03	Category B driver	01	Experience
04	Executive Secretary	01	BTS + experience
Reserved positions (filled as required)			
01	Civil Engineer (roads and utility networks)	01	Master's degree or state engineering degree
02	Civil Engineer (Environment)	01	
03	Metallurgical Engineer (Structural Steel)	01	
04	Metallurgical Engineer (Pipelines)	01	
05	Architectural Engineer	01	
06	surveyor-estimator	01	BAC+3 / Diploma of Applied University Studies / senior technician
07	land surveyor
